LINGUA, DISCORSO E SOCIETÀ

STUDI E RICERCHE
SULLE DIMENSIONI SOCIALI DEL LINGUAGGIO

Muovendo dall'assunto che la lingua è un fenomeno sociale che si realizza nelle interazioni e nei concreti usi linguistici degli individui, la collana si propone di pubblicare saggi e ricerche che approfondiscano tale dimensione sociale della lingua e che analizzino il modo in cui i significati vengono costruiti socialmente attraverso i nostri comportamenti linguistici.

I temi di specifico interesse sono diversi e coprono ambiti disciplinari che spaziano dalla sociolinguistica all'analisi del discorso: relazione tra lingua e ambiente sociale, lingua e identità, lingua e genere, dimensione interculturale del linguaggio, varietà di lingua legate a specifici contesti sociali, come per esempio il discorso politico, il discorso dei mezzi di comunicazione o il discorso accademico.

Nella loro eterogeneità, tali temi avranno anche in comune, all'interno della collana, il filo conduttore metodologico di essere indagati attraverso l'analisi di dati empirici.

LAURA TOMMASO

**AGEING DISCOURSE
IN THE NEWS**
A CORPUS-ASSISTED STUDY

ISBN
979-12-218-0511-6

PRIMA EDIZIONE
ROMA GENNAIO 2023

You grew old first not in your own eyes, but in other people's eyes; then, slowly, you agreed with their opinion of you.

Julian Barnes, *Staring at the Sun*

Contents

- 11 List of Figures
- 12 List of Tables
- 13 Acknowledgements
- 15 Introduction
- 23 Chapter 1
Background to and Purpose of this Study
1.1 Ageing: Setting the scene, 23 – 1.2 Ageing in the media, 33 – 1.3
The purpose of this study, 39 – Chapter summary, 40
- 41 Chapter 2
Theoretical and Methodological Frameworks
2.1 Discourse and Discourse Analysis, 42 – 2.2 Main theoretical
references, 44 – 2.3 Corpus Linguistics, 48 – 2.4 Combining Corpus
Linguistics and Discourse Analysis, 51 – 2.5 The British press, 54 –
Chapter summary, 57
- 59 Chapter 3
Corpus Design and Data Collection
3.1 Introduction, 59 – 3.2 Search terms rationale, 61 – 3.3 Corpus
collection, 66 – 3.4 Corpus processing and analysis, 69 – 3.5 Corpus
linguistic methods, 72 – 3.5.1 Keyness and keywords, 72 – 3.5.2
Collocations and concordances, 74 – Chapter summary, 77
- 79 Chapter 4
Exploring Ageing in the Corpus
4.1 Shared keywords, 80 – 4.2 Beginning the analysis, 86 – 4.3 Word
Sketch of the keyword age, 90 – Chapter summary, 103
- 105 Chapter 5
Ageing and Health
5.1 The keyword ageing and its lexical collocates, 105 – 5.2 Ageing
well, risk and responsibility, 108 – 5.3 Ageing and the biomedical
sciences, 115 – Chapter summary, 124

125	Chapter 6 <i>Older-Age Identities</i> 6.1 <i>Introduction</i> , 125 – 6.2 <i>Naming strategies</i> , 127 – 6.3 <i>Elderly and old* people</i> , 132 – 6.4 <i>Population Ageing: Crisis for some, problem for all</i> , 143 – 6.5 <i>Workers of today, pensioners of tomorrow</i> , 146 – 6.6 <i>Collocates of generation</i> , 154 – <i>Chapter summary</i> , 165
167	<i>Conclusion</i>
171	<i>References</i>
195	<i>Author Index</i>

Figures

- 4.1 Sketch difference of *objects of age* tagged as a verb in Tabloid Left and Tabloid Right sub-corpora
- 4.2 Visualisation of the first ten *age* (n) collocates categorised by grammatical relations
- 4.3 Visualisation of the first ten *age* (v) collocates categorised by grammatical relations

Tables

- 3.1 Breakdown of the corpus by newspaper
- 4.1 Breakdown of sub-corpora by format and political leaning
- 4.2 Shared keywords with normalised frequencies (per million words) in each sub-corpus
- 4.3 Shared keywords grouped into semantic categories
- 5.1 Shared lexical collocates of *ageing* ordered by frequency
- 5.2 Prepositional and adverbial collocates of *ageing* ordered by frequency
- 6.1 Nouns modified by *elderly* (adj) regarding the category of social actors ordered by score
- 6.2 Modifiers of *elderly* (n) ordered by score
- 6.3 Nouns modified by *old** regarding the category of social actors
- 6.4 Distribution of *the elderly*, *elderly people*, and *old* people* across the four sub-corpora
- 6.5 Nouns modified by *ageing* regarding the category of social actors
- 6.6 Nouns modified by *middle-age* ordered by score
- 6.7 Social actors grouped into socio-semantic categories
- 6.8 Collocates of *elderly* tagged as a noun and grouped into grammatical relations
- 6.9 Collocates of *ageing population* ordered by frequency
- 6.10 Collocates of *generation* grouped into grammatical relations
- 6.11 Verbal collocates of *boomer* as object and subject

Acknowledgements

I would like to thank the Department of Humanities (DISUM) at the University of Eastern Piedmont for funding the present volume.

In my circuitous journey as a scholar, the inspiration and advice of colleagues have helped me tremendously in the writing of this book, though I am the only person to blame for its remaining deficiencies and omissions. I wish to express my sincere gratitude to Stefania Spina for welcoming this study in her series and for her most appreciated comments. Thank you also to Elisabetta Lonati for her thoughtful and invaluable guidance. Constant encouragement and generous insights on my research were provided by Giovanni Iamartino, Kim Grego, Laura Pinnavaia, Alessandra Vicentini, and Marianna Lya Zummo, for which I am truly grateful. My gratitude extends as well to Glen Michael Alessi and Massimiliano Demata for our conversations about our shared research interests and their valuable comments on earlier chapter drafts.

Finally, I wish to thank my parents, Lina and Luigi, for their love and support. I am also grateful to Daniele Barioglio, Daniela Fabrizi, and Angela Valentini for their heartfelt and timely responses along the way.
